

Installation Instructions

Flutter

URL: <https://docs.flutter.dev/get-started/install>

Android Studio

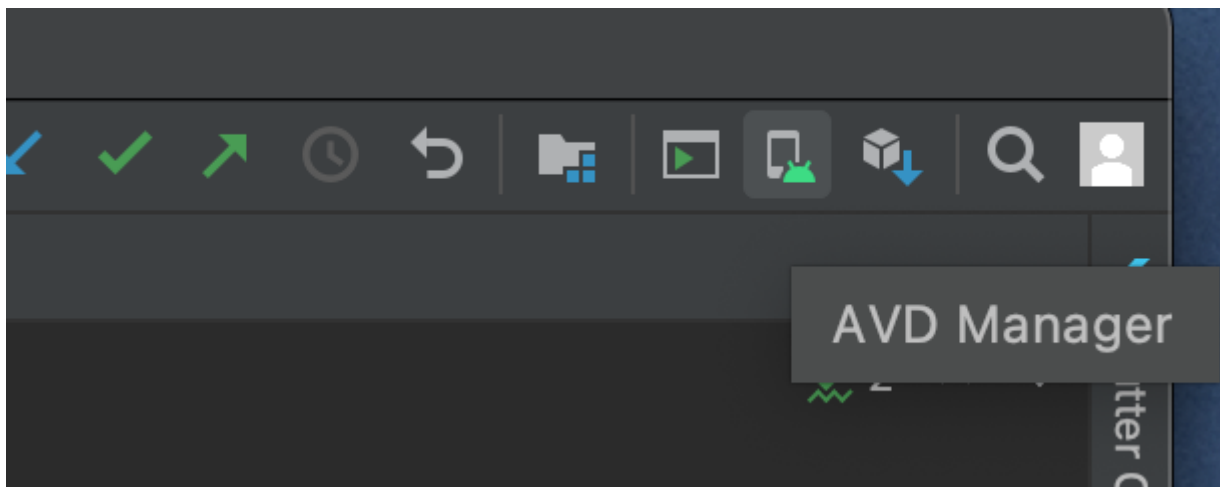

URL: <https://developer.android.com/studio/>

Emulator

Note: When using Emulators have to set device's current location within london for most systems to work appropriately

For Mac Users: iOS simulator

For All Users: Android Studio Emulators

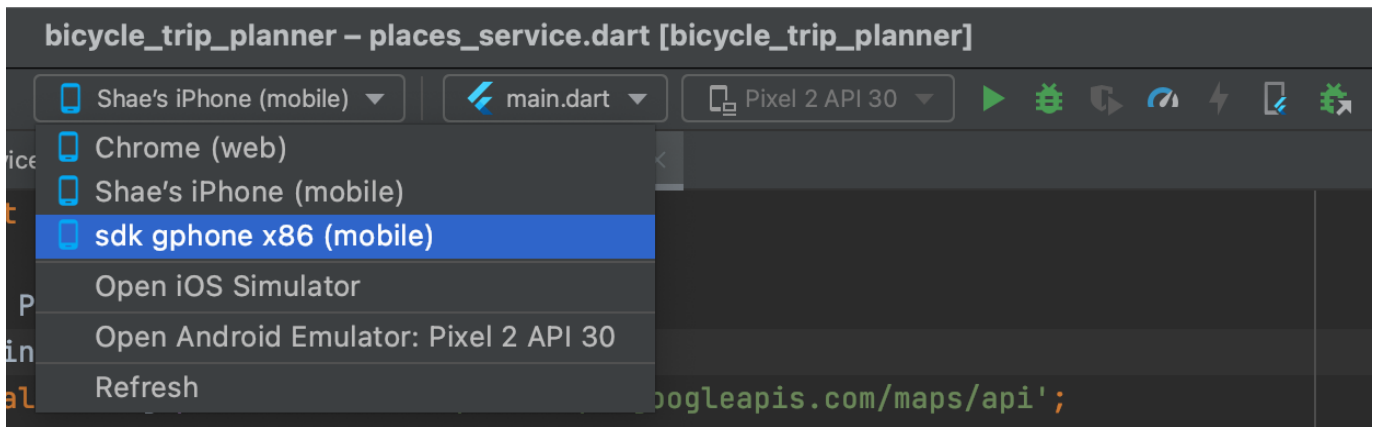

Press Create Virtual Device

Select Pixel 4 running on 'R' system image

Press Launch on the newly created Emulator

Select the running emulator and main.dart to run the application

Running on Device Instead of Emulator

Explanation URL: <https://stackoverflow.com/questions/54444538/how-do-i-run-test-my-flutter-app-on-a-real-device>

Flutter Operations

`flutter pub get` : Needs to be run before starting the application the first time

`flutter run` : runs the application

`flutter run --release`

`flutter run --debug`

`flutter pub get` : updates the dependencies

`flutter test` : runs the tests
